

Cut costs. Save energy. Earn rewards.

See how twice-annual cash payments from Energy Smart give commercial building owners and managers the control and funding to experience new possibilities.

Join Energy Smart, the Commercial Automated Demand Response program that reduces energy usage, supports electric grid resiliency and earns twice-yearly cash payments. Participation is free and fully automated, with no penalties for opting out.

Program benefits

Easy to use: Easy implementation with no cost or ongoing maintenance and free installation and programming.

Cash payments: The more energy you save, the more cash you earn – \$50/kW incentives during summer and \$10/kW during non-summer.

Complete control: Opt out before or during any scheduled event with no penalties because you decide your organization's participation levels.

Automated programming: Fully automated, pre-programmed solutions provide flexibility to maximize energy savings with minimal operational impact.

Start earning cash payments to help your organization realize new possibilities.
